

Broodstock Feed For Salmonids

FEATURES & BENEFITS

Martin's Broodstock Feed For Salmonids is an extruded slow-sinking diet formulated for the specific maintenance and conditioning needs of larger Brood Fish. Enhanced vitamin and mineral levels promote the quick recovery of fish during the stressful spawning period. Inclusion of the carotenoid, Astaxanthin promotes excellent egg quality and offspring vigor.

Guaranteed Analysis:

| | | | |
|----------------------|------|------------------|-------------|
| Crude Protein (min) | 45% | Sodium (actual) | 0.35% |
| Crude Fat (min) | 12% | Vitamin A (min) | 10,000IU/Kg |
| Crude Fibre (max) | 3.0% | Vitamin D3 (min) | 3,000IU/Kg |
| Calcium (actual) | 1.3% | Vitamin E (min) | 100IU/Kg |
| Phosphorous (actual) | 1.0% | | |

Digestibility Information:

| | |
|---------------------------|------|
| Digestible Protein-DP (%) | >90% |
| Digestible Energy-DE (MJ) | 15.0 |
| DP/DE (g/MJ) | 26 |
| Fat From Fish Sources | >91% |

Ingredients: Fish Meal, Fish Oil, Alfalfa Meal, Wheat, Soybean Meal, Corn Gluten Meal, Dried Whey, Iodized Salt, Choline chloride, L-ascorbyl 2-monophosphate, Vitamin & Mineral Premix, Ethoxyquin.

Storage: Store in a cool dry place. For best results we recommend feeding this ration within 6 months from manufacture date.

Feeding Instructions: To ensure the best quality and quantity of egg and/or milt production during spawning, it is imperative that brood fish be fed immediately after spawning as much as they will consume. This conditions the fish for the next spawning. Monitor fish feeding behaviour closely 6-8 weeks before spawning. At this time the fish will be reducing their feed intake substantially. Overfeeding will result in feed waste and poor water quality conditions. Our feed representative can provide you with more assistance if desired.

Available Sizes

| | | | | |
|--|--|-------------------------------------|--|--|
| | | 6.0mm Pigmented Only | | |
| | | 600g+ | | |

Recommended Fish Size to Feed

Pigmentation: Pigmented rations contain 50ppm Astaxanthin

Packaging: 20Kg (44.1lb) polyethylene plastic bag, also available in bulk
