

Sinking

FEATURES & BENEFITS

Ver. 06/2008

Martin Classic Sinking Fish Feed is a cost-effective diet based upon a proven matrix of carefully selected ingredients. It is fortified with stabilized Vitamin C and is excellent as a finisher ration for food fish production where pigmentation and flesh quality is paramount at market time.

Guaranteed Analysis:

Crude Protein (min)	42% Typical (43%)	Sodium (actual)	1.3%
Crude Fat (min)	16% Typical (17%)	Vitamin A (min)	12,000IU/Kg
Crude Fibre (max)	2.5%	Vitamin D3 (min)	2,850IU/Kg
Calcium (actual)	1.4%	Vitamin E (min)	300IU/Kg
Phosphorous (actual)	1.0%		

Digestibility and Other Specifications:

Digestible Protein-DP (%)	>90%	Omega-3 Fatty Acid Content	~4.0%
Digestible Energy-DE (MJ)	~17.0	Omega-6 Fatty Acid Content	~0.9%
DP/DE (g/MJ)	24.0	Carbohydrate Content	~22.0%
Fat From Fish Sources	>80%	Crude Ash Content	~6.5%

Ingredients: Corn Gluten Meal, Poultry Meal, Herring Meal, Herring Oil, Soybean Meal, Wheat Middlings, Wheat Flour, Poultry Fat, Vitamin E, Vitamin Pre-mix, Vitamin E, Choline chloride, Iodized Salt, Mineral Premix, L-ascorbyl 2-monophosphate (Source of Vitamin C).

Storage: Store in a cool dry place. For best results we recommend feeding this ration within 6 months from manufacture date.

Feeding Instructions: Feed as close to satiation level as possible to maximize growth. Monitor fish feeding behaviour closely. Overfeeding will result in poor feed efficiency, feed waste and poor water quality conditions. Recognize that fish will eat to meet their energy requirements, which is influenced by temperature. Feed one meal a day in colder temperatures. Increase the feeding rate as temperatures rise but cease feeding when excessive temperatures are reached or when there are other constraints to feeding (i.e. low oxygen levels in the water). Our feed representative can provide you with more assistance if desired.

Available Sizes (Fish Size)

2.5mm* Regular	3.0mm Regular	4.0mm Regular	5.0mm Regular or Pigmented	6.0mm Regular or Pigmented	7.0mm Pigmented Only
18-30g (4-5")	23-40g (5-6")	40-90g (6-8")	90-250g (8"+)	250g+ (11"+)	600g+ (14"+)

*millimetres

Pigmentation: Pigmented rations contain 50ppm Astaxanthin

Packaging: 25Kg (55.12lb) polyethylene plastic bag (recyclable), also available in bulk
